THE insatiate American desire to "break away" from conventional things has lead us to design and offer a line of real English Writing Tables.

They are a happy innovation, welcomed by all. They are designed by one of the most celebrated English designers, and built along the same lines as the famous Ladies Writing Tables so popular in England.

In the English Writing Tables, shown herewith, we present a very useful piece of furniture, novel but artistic in design, and one that can be placed with the utmost propriety in the most gorgeously furnished reception room, sitting room, library, or ladies' boudoir, and that will be an ornament to either.

The "COLONIAL FURNITURE CO.," in designing and making these tables, has employed every effort to produce a piece of furniture worthy the place we ask for it, and, as usual, has made QUALITY the first consideration.

They are made in Solid Mahogany and Quartered Oak only.

CAN WE DO MORE?

Our Advice

NEVER BUY FURNITURE that is inferior. You'll soon be ashamed of it.

NEVER BUY FURNITURE made to imitate that which is better. It is a confession of inferiority.

Buy from the Colonial Furniture Co. and get perfect workmanship, superior finish, grace, beauty and elegance in your furniture direct from the factory at the lowest possible price.

Good Furniture enriches your home, adorns your fireside, charms your friends. Cheap furniture detracts from your surroundings, will become distasteful to yourself, looks vulgar to the refined.

Buy Unusual Furniture
Direct from the Maker.

Manufacturing in "The Furniture City" of the world, where are gathered the ablest designers and the most skilled mechanics, we are surrounded by conditions for the production of high art furniture not existing elsewhere.

Our designs are exclusive, and are the best that years of experience, study and travel can suggest. Our material is so carefully selected, our mechanics so well trained and our finish so superior that it is impossible that our furniture could in any way be made better than we make it. We can truthfully say, not "as good as" but the best of its kind.

Our shipping it on approval, express prepaid, proclaims our faith in it.

Should goods prove faulty in construction or finish within one year, we will replace them.

We make no imitation of mahogany, barring delicate parts, such as small spindles in light chairs, which are of necessity, and universally made by all manufacturers, of stronger wood.

The tops and shelves of our stands and tables are all made five-ply—that is, made of five thicknesses cross-banded, making it impossible for them to warp or check.

We do not make any furniture excepting that shown in this catalogue, and that in the sizes given only.
